EDUCATION

Universidad Nacional de Villa Mercedes (UNViMe)

Associate Degree in University Systems Programming

Villa Mercedes, San Luis

2022 – Present

EXPERIENCE

Freelance Web Development

Full Stack Developer

**Villa Mercedes, San Luis
(Remote)**

October 2025 – Present

- **Designed and developed "A la Pelotita!"**, a comprehensive management system for sports complexes, implementing a full-stack architecture optimized to streamline slot bookings.
- **Created and implemented "ProTienda"**, an e-commerce platform for nutritional supplements, integrating the WhatsApp API to automate order processing and boost sales.
- **Developed dynamic [web applications](#)** using React, Next.js, TypeScript, and Node.js, ensuring fast, modular, and responsive user interfaces with Tailwind CSS.
- **Developed an Electronic [Voting System](#)** using Java and SQL, implementing strict validation logic and secure database connections to ensure data integrity and information auditability.
- **Designed and programmed "mmgirls"**, architecting a custom e-commerce solution tailored for the stationery and design sector, integrating a dynamic shopping cart linked to WhatsApp and real-time inventory synchronization via Supabase.
